Projects

1. Responsive Profile Card

HTML, Tailwind CSS / June 2025

Description: Created a fully responsive and visually appealing profile card using Tailwind CSS utility classes. Showcased profile image, name, role, and social/contact links with hover effects. Ensured mobile-first design using Tailwind's responsive breakpoints and flex/grid layout utilities.

2. Personal Portfolio Website

HTML, Tailwind CSS / June 2025

Description: Built a portfolio website to showcase personal projects, skills, and contact details. Used Tailwind CSS to create a modern, clean layout with smooth navigation and mobile-first responsiveness. Included sections like About Me, Projects, Skills, and Contact.

3. Basic Calculator

HTML, CSS, JavaScript / June 2025

Description: Created a simple and responsive calculator to perform basic arithmetic operations: addition, subtraction, multiplication, and division. Designed the layout using HTML and styled it with CSS for a clean and user-friendly interface. Used JavaScript to handle input, button functions, and display results dynamically.

4. Bat Ball Stump Game

HTML, CSS, JavaScript / June 2025

Description: Developed a simple interactive Bat Ball Stump game where users can play against the computer. Used JavaScript to implement game logic, random computer choices, and result display. Designed a clean and responsive user interface using HTML and CSS. Practiced DOM manipulation, event handling, and basic game state management.
